

RECORD OF FENCES JUMPED

Name of Athlete: _____

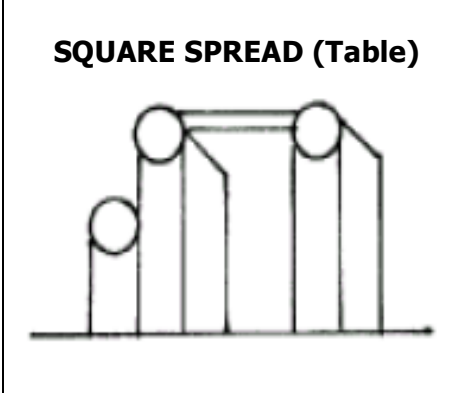

Note the Fence Number, how many fences in course, at which event, and the level jumped, Comment on how it jumped for you/for the class. At every event, as well as the results for each phase and a total for each competitor, there is a Cross Country analysis. This gives a very good picture of the overall course and the jumps which caused the most penalties. 20 penalties indicates a run out or refusal at the jump. 60 penalties indicates a second run out or refusal. 65 penalties indicates a fall. Check this analysis at each event and determine if any of the jumps which you rode caused problems to other competitors in your class or level. If you intend to move up a level next time at a particular event, check this course's results as some of the fences will be the same at the next event run.
